As a proof of the final vindication of the rule of the people, Red Russia is about to be forced to her senses by the Russians. Swinging from Absolutism to Anarchy, the pendulum is swinging back and will stop with liberty without license.

We have received during the past few weeks several communications from different localities in the county, which we would be glad to but for the fact that they are not signed. We would like very much to have a live, newsy letter each week from every section of the county, but they must always have the signature of the writer, although the name will not be published unless the correspondent wishes it.

### STATE SANITARY INSPECTORS BEGIN THEIR WORK

In nine different sections of the State the people of North Carolina, on October 1, became acquainted with an entirely new experience. The State Sanitary Inspectors began their work in their respective districts on that date, and this was the first instance of just this kind in the history of the Nation. It happens that in this step, which is considered generally as the most progressive step ever taken by any State, North Carolina leads the way, as usual. The visitation of the State Sanitary Inspectors, therefore, is a new experience to both the people and the inspectors themselves.

### AMERICANISM.

The American Legion and other agencies are howling for "100 per cent Americanism." We ask to know the meaning of the phrase, for in these perilous times it is capable of so many interpretations that unless it carry with it its meaning it becomes an empty phrase, and, mayhap, an insidious one.

If being interpreted it mean that America is to follow the example of Germany and draw about herself the arrogant cloak of self-sufficiency, forgetting that there are some hundreds of millions of others in the world—if it mean that such a suicidal course should be pursued, America will have none of it, for it be neither patriotism nor common sense.

If it mean that America should rest upon the laurels won by our fathers, and while the rest of mankind work forward to our common destiny, we are to hark back to the status quo ante bellum and live again the days and customs that have been relegated to the junk heap, we are then no better than the ancestor-worshipping Chink who would be content to wear his queue and drink his tea in the Celestial gardens, forever dreaming of the greatness of his progenitors.

But if the interpretation be that we believe in America; that we think this the mightiest nation on the globe, because of the inherent love of fair play among our people; that we believe in the mission of America to lead, not drive, the world out of the wilderness of hatred and tyranny into the promised land of freedom, and equality, and justice and brotherhood. That we believe in the principles upon which our government was founded and are convinced that they are as eternal as Justice itself. That these fundamental principles are to be enlarged upon and more and more put into practice until injustice be banished from the earth, and love and brotherhood become the guiding star and the law between men and nations. If this be 100 per cent Americanism, then indeed we

are all 100 per cent American, for that is the Americanism of all true patriots, from the time that the first white man set foot upon this continent, fleeing from injustice and tyranny until the present day.

### JUVENILE COURTS

One of the most forward looking and wisest steps taken by the General Assembly of North Carolina was the enactment of the law establishing Juvenile Courts and providing probation officers. Heretofore the State has been content to let the children grow up as best they could, and if they made good and useful citizens well and good, if not they were sent to the penitentiary after they became grownups. Now in every county in the State there is a court and an officer of that court whose duty is to look after the children of the county and see that they have a fair chance in life, to correct when correction is needed and counsel when advice will help. It is the business of the court to see that every child takes advantage of the schools provided by the tax money of a generous people. It is the duty of these officials to make citizens of the youth of the state instead of criminals. The other day the Juvenile Court of Jackson county had before it a delinquent lad of fourteen. He had no father and his mother seems unable to control him, and he has repeatedly been a truant both from school and from work. A few weeks ago a man came along and induced this boy to go with him to the cotton mills at Gastonia. The boy made enough money working there to pay his board, but not enough additional to have his laundry done, so he got a job at the Gaston county fair and worked out enough money to come home. Arriving here, he was tired and weary and to all appearances was starting again on the shiftless, downward course that takes bright faced boys like him and makes them criminals. The court after hearing his tale decided that the boy should be given another chance before he was sent to the reform school, so he was put on probation, as a ward of the court, and is to report to the principal of the school in his district each morning, is to be home by four o'clock each afternoon, is to stay at home on Saturdays and help his mother about the home, is to attend church and Sunday school services every Sunday, and to avoid the company of other youths whose influence over him has been not of the best. That is the kind of work the Juvenile courts are doing for the lads who have a tendency to do wrong, and unless we miss our guess, many a dollar in court costs later on will be saved for the state, and best of all, many a good citizen will be made of boys who would otherwise become a menace to the State.

### "Wonderful" Says Mrs. M. Kirkland

WAS SO ROUNDED AT TIMES SHE  
COULDN'T WALK—GAINS TWENTY  
POUNDS BY TAKING TANLAC

Mrs. Mattie Kirkland, a highly esteemed resident of 2547 Benton Boulevard, Kansas City, Missouri, called at the Owl Drug Store recently, and made the remarkable statement that she has not only gained twenty pounds in weight by the use of seven bottles of Tanlac, but that the medicine has also relieved her of a case of nervous indigestion that had made life miserable for her for three years.

When asked if she would be willing for her statement to be published, Mrs. Kirkland said:

"Yes, indeed, for if it had not been for others allowing the news of their recovery published I would not have known about Tanlac and would still be a sick woman. So I feel that I ought to make a statement myself and try to benefit someone else. During those three years everything I ate disagreed with me. My appetite was so poor that I seldom felt like eating and I would suffer for hours after every meal from the gas on my stomach. My head ached all the time and I often got so nervous and dizzy that I would have to lay down. I lost weight until I got down to only one hundred and ten pounds and my house work was a burden to me. I was so run down and weak that I could not walk at times, and while I used most everything I heard of nothing did me any good."

"I read so many testimonials for Tanlac given by our own Kansas City people, and their statements sounded so sincere, that I made up my mind to try the medicine myself. So I bought a bottle and when I finished taking it there was such a wonderful change in my condition that I got another, then another, and then another, and so on until now I have used seven bottles and the results have been nothing less than wonderful. I can eat just anything without the least trouble afterwards and my appetite was never better. My nerves are perfectly calm and I sleep every night just like a child. In fact, I am feeling as strong and well as I did before my troubles started, three years ago, and I have actually gained twenty pounds in weight. I now know for a certainty that Tanlac is wonderful and I can't praise it too highly for what it has done for me."

All druggists sell Tanlac.

### THE MARKET FOR POTATOES

The price paid for Irish potatoes during September varied from \$1.00 per bushel in Clay and Jackson counties in the mountain section to \$2.75 per bushel in New Hanover, the average for sixteen counties reporting being \$1.75. The movement of potatoes in September has been very light from Waynesville. Those who did not sell in August have been holding back on digging and selling. The Mountain Growers' Exchange sold potatoes in September at \$4.25 per 150 bag net F. O. B. Waynesville. This net growers about \$1.55 per bulk bushel. Potatoes have sold locally to local buyers and shippers all the way from \$1.00 to \$1.25 per bulk bushel with some sales reaching higher. The yield of late Irish potatoes as reported by the Bureau of Crop Estimates is short. Conditions on September 1st indicated a yield of 123,518 carloads of 700 bushels to the car as compared to 146,658 carloads a year ago. Price of late sweet potatoes in nine counties was \$2.00 per bushel, prices being as low as \$1.00 in Currituck, \$1.50 in Durham, \$1.50 in Guilford and \$1.25 in Pasquotank county.

### NOTICE

All persons who are subject to pay a dog tax are hereby notified that all dog taxes were due on the First day of October 1919, according to the construction of the Dog Law by the Attorney General. The tags are now ready and every one who can is urged to come to my office to pay this tax and get the tag as the Law requires all dog taxes to be paid on or before the first day of December, 1919, under a penalty of a fine of \$50.00. The tax is \$1.00 for a male dog and \$2.00 for a female. Parties living in the remote Townships may join in and mail their dog taxes and the tags will be sent by mail to one address for distribution.
